 24-Jan-2023

Our ref: CE 686639
Expiry date: 09/Dec/2022

To whom it may concern,

Information to support the application of Article 97 of the Medical Device Regulation (EU 2017/745; MDR) to legacy devices for which the MDD or AIMDD certificate expires or has expired before the issuance of a MDR certificate

This letter is issued pursuant to the principles laid out in MDCG 2022-18 to support the manufacturer’s application for derogation under Article 97 of the MDR for the legacy devices (as described by MDCG 2021-5 and to which Article 120(3) of the MDR applies) identified below.

Legacy devices covered by this letter

This letter is limited to covering the following devices only:

Device name	Type/ model/ref number	Basic UDI-DI Germany
Drill Bit	TD-1.2	426052978DRILLSET
Drill Bit	TD-1.5	426052978DRILLSET
Drill Bit	TD-2.5	426052978DRILLSET
Drill Bit	TD-2.8	426052978DRILLSET

Confirmation

This letter confirms that:

- The certificate referred to above was issued by BSI under the requirements of the Medical Device Directive (93/42/EEC) (the "MDD");
- The certificate referred to covers the legacy device(s) specified above, (or covered the legacy devices at the time of its expiry);
- The certificate referred to above has either expired by course of time (and was valid at the date of its expiry, it neither having been suspended nor withdrawn), or is to expire shortly (and remains valid at the date of this letter);
- An application under the MDR for the devices specified above has been accepted and the contract with the manufacturer signed;
- The estimated time to finalise the conformity assessment in accordance with the MDR for the subject device(s) is 12 months from the date of this letter. Please note that the estimated timescale by when conformity assessment under the MDR will be complete is subject to many factors, such as the quality of the manufacturer's technical documentation, manufacturer's responsiveness, Competent Authority's responsiveness and Notified Body resource with the correct competence codes.

Assumptions

BSI Group is issuing this letter on the following assumptions. BSI Group requires the manufacturer to inform it immediately if any of these assumptions are incorrect:

- the devices are not subject to any investigations by any regulatory authorities / notified bodies in relation to their safety;
- the manufacturer (or its authorised representative) has provided (or will provide) the Competent Authority all the requisite information as per MDCG 2022-18, especially data concerning incidents and field safety corrective actions, to permit the Competent Authority to evaluate risk to the health and safety of patients;
- the Competent Authority will evaluate the risk associated with the devices to determine if there is no unacceptable risk to patient health or safety and thereby whether Article 97 may apply to the devices covered by the MDD certificate.

Conditions

This letter is issued subject to the following conditions:

- that the assumptions above remain correct at all times;
- that the manufacturer (or its authorised representative) provides to the relevant Competent Authority any relevant information relating to the devices that demonstrate that the evaluation of the Competent Authority (that the devices do not present an unacceptable risk to patient health or safety) may need to be re-evaluated;

- that the manufacturer provides to BSI Group a copy of any authorisation granted by a Competent Authority under Article 97 of the MDR.

Providing these conditions are met, BSI Group will commit to providing the relevant Competent Authority information relating to any major safety-related shortcomings identified during conformity assessment under the MDR.

This confirmation letter remains valid for as long as the manufacturer continues to apply to meet the requirements of conformity assessment under the MDR, within the scope of a contract for such services it has with BSI Group.

Yours faithfully,

Eniola
